A practical kit for friction log, trial plan, before-and-after review.

This is a mock PDF describing a proposed product. It does not contain the promised guide, activities or templates. The product is not on sale.

What it is

Process improvement sprint is a focused, self-guided planning kit for team leads and small business operators. It organizes friction log, trial plan, before-and-after review into a practical workflow, with editable worksheets and a completed fictional example. Start with your own situation, make the decisions on the worksheets, and finish with a plan you can revisit. The completed example illustrates the method; it is not a customer result.
