Customer onboarding messages

A practical kit for first-use checklist, welcome email, progress check-in.

This is a mock PDF describing a proposed product. It does not contain the promised guide, activities or templates. The product is not on sale.

What it is

Customer onboarding messages is a focused, self-guided planning kit for support leads and solo service providers. It organizes first-use checklist, welcome email, progress check-in into a practical workflow, with editable worksheets and a completed fictional example. Start with your own situation, make the decisions on the worksheets, and finish with a plan you can revisit. The completed example illustrates the method; it is not a customer result.
